

## Inserting new release and maintenance of data

## Logic for giving of magnet display credits

Number of submitted releases	Number of magnet displays given
0-10	1
10-30	2
30-60	4
60-100	7
100-200	11
200-500	16
500+	25

Moderators and administrators do not have constraints on how many magnet links they can see, everyone can be promoted to moderator level by supplying his bandwidth, cpu and data storage thus helping decentralization, through various services such as IPFS or Wip2p (that yet has to be determined). There should be active monitoring on whether they are continuous with such type of support, so user level is maintained. Generally, the site will rely on community only, not on any enterprise service.
